Writing Letters “A to Q”

Last week, we introduced letter “Q q”. To revise the concept of all the letters up to Q, we gave them chalk and asked them to write letters A to Q on their study table. We also wrote on board to guide them how to write and at the same time we revised phonics sound of the same letters.

NUMBER READINESS

Numeral Match Dice

To begin the session, we sang ‘Count 1 to 10” song to indicate that they have to learn about numerals. In this activity they had to roll the dice and count the dots facing up and another child would show the wooden cutout of the same number. Children enjoyed the session.

CONCEPT

Exploring Ocean Animals

This month, we have the theme “Water World”, in which we briefed different marine animals to the children. We showed them a puppet of a scuba diver and explained them how a scuba diver goes in water, wear a rubber suit, glasses and flippers. We also showed them the oxygen cylinder and pipes he carries at his back. Children listened and observed it carefully and enjoyed a lot.

PLAY GYM AND MOVING AND GROOVING

Hoopla Activity

Physical activities are best for learning experience. One of the such activities is “Walking Through Hoopla”. In this, we kept hoopla in pattern and kept the number blocks in it. Children enjoyed the session and learned the series of numerals.

CONCEPT

Public And Private Transport

This week, we introduced a new concept – ‘On The Move’ (Private and Public Transport) to our tiny tots. As per the concept, we explained them that the public transports are used by members of a community whereas the private transport is used by members of a family or its owner only. To clear the concept, we also used PPTs and conducted various activities.

MATHEMATICAL SKILLS

Addition

This week, we did an activity 'Adding Fun Tub' to explain addition. In this activity children had to put the number of doughnuts instructed by the teacher, through the glasses and count the total number of doughnuts collected in the tub. All the children understood the concept and enjoyed the activity.

LANGUAGE SKILLS

'ap' and 'ad' Words Game

This week, we did an activity regarding 'ap' and 'ad' words. Teacher explained them that when we merge two alphabets, we get a different sound. In this activity children had to pick up a letter and place it before the word 'ap' and 'ad' to make a meaningful word. All the children completed the task with great enthusiasm.

'SH' Diagram

In literacy, this week we gave introduction of consonant diagraph 'SH'. It is one of the most common diagraphs. It is found in many basic words, once we made our kids understand that the letters 's' and 'h' come together to represent one new sound, then we did an activity to give more practice of 'SH' diagraph.

MATHEMATICAL SKILL

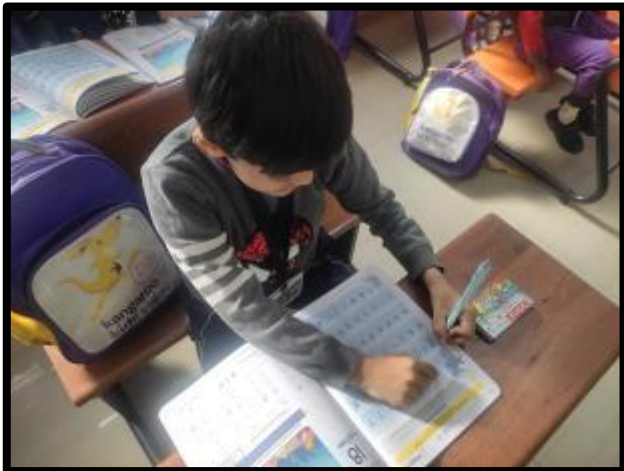

Find The Biggest Number

In math, large, small and equal number concept to help the kids to understand how one number is different from the other number. Whether one number is bigger or smaller than the other number or both the numbers are equal. This week, in math our kids did classwork page in that they had to compare numbers and found larger number and circled on it. They really enjoyed this concept.

CONCEPT

Water Cycle

This week, our tiny tots learnt about Water Cycle. We made our kids understand by visuals about water cycle. We informed them that heat from the sun causes water to **evaporate** from oceans, lakes and streams. Evaporation occurs when liquid water on earth's surface turns into water vapor in our atmosphere. As the water vapor rises higher, the cool air of the atmosphere causes the water vapor to turn back into liquid water, creating clouds. This process is called **condensation**. When a cloud becomes full of liquid water, it falls from the sky as rain or snow - also known as **precipitation**. Rain and snow then fill lakes and streams, and the process starts all over. Children enjoyed this concept.
