Vaccination Camp

Date: 18.07.2023

“Prevention Is Better Than Cure”

Vaccination is the most important thing we can do to protect ourselves and our children against diseases. In collaboration with Government Health Department APS, organized vaccination camp for tetanus and diphtheria for the students of Grade - 5 and 10.

TT vaccine has been replaced with Td vaccine in UIP to limit the waning immunity against diphtheria in older age groups. Td vaccine has to be administered to adolescents at 10 and 16 years of age.

A team from Government Health Department visited school on 18th July, 2023. All the students from Grade - 5 and 10 were vaccinated under the supervision of **School Nurse Ms. Munira Khoja**.
