AI & Robotics Session

Date – 28ᵗʰ August, 2023

"Artificial Intelligence will have a more profound impact on humanity than fire, electricity and the internet." – Sundar Pichai

An enlightening session on AI and Robotics was conducted at Adani Public School, Mundra on 28ᵗʰ August, 2023 for the students of Grade - 9 to 12. The resource person was **Mr. Sandeep Kahnani**. He is the distinguished founder of Wingfotech Pvt Ltd., with a remarkable career dedicated to edtech entrepreneurship and motivational speaking.

The session primarily revolved around AI and Robotics, two dynamically evolving fields that are reshaping various industries. Mr. Kahnani's insights and experiences provided the students with valuable knowledge and an intriguing glimpse into the future possibilities of technology.

He covered the following points in his session:

- Sentiment Analysis
- Python
- Generative AI
- ChatGPT Robotics
- Techstein Event

The session conducted by Mr. Sandeep Kahnani left the students inspired and intrigued by the vast potential of AI and Robotics. This initiative not only empowers students with technical skills but also instills a sense of curiosity and innovation that will undoubtedly shape their future endeavors. Special thanks to Principal Dr. Mayur Patadia and Khalida Madam for arranging such insightful session for students.
