

## Field Trip to Regional Science Centre, Bhuj

December & January

**"Science is the art of unravelling the mysteries of the universe, where curiosity is the brush, and knowledge is the masterpiece that paints the canvas of understanding."**

Field Trips play a crucial role in a student learning process. They are one of the best tools that can be used to provide every student a real-world experience. It enhances their critical thinking skills and gives students a chance to think about a topic or theme from different perspective.

Adani Public School Mundra provides a plethora of opportunities to students, to showcase their talents and nurture their interest. Our students from Grade 4 to 7 made their educational journey to Regional Science Centre Bhuj.

The Regional Science Centre serves as a dynamic hub for scientific exploration and education within a specific geographic region. These centres are designed to engage the public in a hands-on, interactive learning experience, fostering a deeper understanding of scientific principles and phenomena. Typically featuring interactive exhibits, workshops, and demonstrations, Regional Science Centres cater to diverse audiences, including students, educators, and the public.

**The main objective of conducting a field trip for students is to reinforce experiential and contextual learning.**

The journey was both informative and enjoyable. Students got immersed in a world of knowledge by exploring six different galleries and engaging hands-on activities made them experience the joy of practical learning.

### **Class 4 Visit to Regional Science Centre, Bhuj**

All the students of grade 4 visited Regional Science Centre on **December 13, 2023**. It was an impressive and remarkable experience both for teachers and students.
