

## Field Trip to Dholavira December 16, 2023

**"Archaeology gives a sense of place. It grounds us within the landscape and every place is unique." – Stephen Dean**

Field Trips play a crucial role in a student learning process. They are one of the best tools that can be used to provide every student a real-world experience. It enhances their critical thinking skills and gives students a chance to think about a topic or theme from different perspective.

Adani Public School Mundra provides a plethora of opportunities to students, to showcase their talents and nurture their interest. Our students of **Grades 10 and 12 made their enjoyable & educational journey to Dholavira via Road of Heaven.**

Dholavira is one among the five largest Harappan cities in the subcontinent; It is one of the oldest cities of India, that is more than 5,000 years old. It is a small village which is located at the corner of an isolated corner of the Great Rann of Kutch spread across 100 hectares. The town planning, the monumental structures, and the facilities they had for water storage and water system is truly remarkable.

Students enjoyed their long trip in bus. They also enjoyed the company of Respected Principal Dr. Mayur Patadia and teachers. On the way to Dholavira one passes through Road of Heaven. Students got down and enjoyed the beauty. They took many photographs and had a great time. They also got down at White Rann and enjoyed the serene atmosphere of White Desert. They were mesmerized by the beauty of Dholavira. They explored the place and enjoyed each moment with their friends.

## **Conclusion:**

The experience was a perfect blend of enjoyment and learning. Adani Public School successfully provided a fun-filled and knowledge-rich experience to the students. Special thanks to, Director of APS Ms. Ami Shah, Director of Education (Kutch schools) Ms. Meeta Jadeja and Principal Dr. Mayur Patadia, Admin and Transport Team for arranging such wonderful and conversant field trip.
