

Friendship Day Celebration

August 2nd, 2024

“Friendship isn’t a big thing-it’s a billion little things.”

The Pre-Primary Section celebrated Friendship Day on August 2nd, 2024 with fervor and togetherness. The Chief Guest for the celebration were respected (Director, APS) Ms. Ami Shah and esteemed (Vice Principal) Dr. Renu Patidar. The event was held in the Pre-Primary AV room. Teachers played a central role in making the day memorable for the young students by engaging the children in all fun filled activities.

Students learned that friendship knows no boundaries; classmates, parents, and teachers all can be close friends. Teachers performed different activities in their respective classes.

Activities:

1. **Dance Performance:** The celebration began with a lively dance performance by the teachers. The dance, choreographed to a popular, child-friendly song, featured colorful costumes and engaging dance moves that captivated the children’s attention. The teachers' energy and enthusiasm created a festive atmosphere, encouraging the students to join in the fun.
2. **Skit Performance:** Following the dance, the teachers presented a skit centered around the theme of friendship. The skit illustrated the values of sharing, caring, and supporting one another. They used simple dialogues and playful interactions that were easy for the tiny tots to understand.

The Friendship Day celebration was a huge success, fostering a sense of joy and togetherness among the students. It was a heartwarming event that effectively highlighted the spirit of friendship. Through engaging performances and interactive activities, the teachers created a joyful experience that resonated with the young students, leaving a lasting impression on them.
