

World Radio Day

February 13, 2025

“Radio a means by which the most important message ever delivered to mankind is ubiquitous.”

Radio is a powerful medium for celebrating humanity in all its diversity and constitutes a platform for democratic discourse. It is a low-cost medium specifically suited to reaching remote communities and vulnerable people, offering a platform to intervene in the public debate, irrespective of people’s educational level. It also plays a crucial role in emergency communication and disaster relief.

World Radio Day is celebrated on February 13 every year. The objective is to promote radio as a powerful medium for celebrating humanity, promoting diversity and providing access to information. Students of class VII A got the opportunity to celebrate World Radio Day. They presented a great show in the morning assembly. Through their small effort they tried to raise awareness about the importance of radio in promoting freedom of expression, cultural diversity and social development.

Under the guidance of their class teacher Ms. Seema Bhatia students prepared advertisements, shared the historical significance of Radio and the importance of the day. They played the signature tune and had news broadcast. The RJ also made the audience feel wonderful and exhilarating. Students had an expert talk with Principal – cum – Director, APS Mr. Hemant Kumar Sharma wherein, he shared his fond memories related to radio and the difference between the radio in the present time and in the past. Expert talk was followed with the birthday wishes and National Anthem.

(Principal – cum – Director, APS) Mr. Hemant Kumar Sharma, (Vice Principal, APS) Dr. Renu Patidar and Coordinators congratulated students for putting up a wonderful show and creating awareness about Radio.
