

NCC Naval 'A' Certificate Examination

March 24, 2025

“The discipline of NCC is not just about following rules, but about becoming a better version of yourself.”

The National Cadet Corps (NCC) is a youth organization in India that aims to develop the character, discipline and leadership skills of young people. The NCC Naval unit is a part of the National Cadet Corps, which is the youth wing of the Indian Armed Forces. Naval cadets undergo training in various skills and participate in camps, such as Combined Annual Training Camps (CATC) which focuses on national integration and leadership development.

Naval Cadets can earn certificates such as Certificate A, Certificate B and Certificate C by meeting specific requirements and passing exams. These certificates demonstrate their proficiency in various skills and knowledge areas.

We are thrilled to announce that one of our students, Ms. Nandini Pane has created history for APS Mundra by becoming the first NCC Naval Cadet from our school to achieve the prestigious 'A' certificate. Cadet Nandini's commitment to the NCC Naval Course has not only earned her distinction but also inspired her peers to follow her footsteps. By achieving 'A' certificate, Nandini has demonstrated her exceptional leadership skills, discipline and knowledge of naval operations.

(Principal – cum – Director, APS) Mr. Hemant Kumar Sharma and (Vice Principal, APS) Dr. Renu Patidar congratulated Cadet Nandini for her outstanding success and CTO Ms. Jigisha Patel for her guidance. Her accomplishment reflects the school's value of excellence, perseverance and service.
