

## Science Model Day Competition

February 28, 2025

**“Everything is theoretically impossible, until it is done.” Robert A Heinlein**

National Science Day is celebrated on 28 February to honor CV Raman's 1928 discovery of the Raman Effect. National Science Day is a tribute to the tireless efforts of scientists and researchers who have dedicated their lives to unraveling the mysteries of the universe. It is a day to inspire young minds to take up science as a career, to promote scientific temper, and to encourage the scientific community to continue pushing the boundaries of human knowledge.

To commemorate the occasion, Science Model Day Competition was organized at Regional Science Centre, Bhuj. A group of 14 students of APS from classes VI and VIII participated in this competition. Around 15 schools took part in this event. Through various events, exhibitions, and activities, it was aimed to popularize science and make it accessible to everyone. All the students actively participated in various activities. Their efforts were appreciated by felicitating them with participation certificates. Participation is more important than winning, it makes you a better winner for the next time. The event reached at its zenith with an inspirational address by a well - known scientist from ISRO.

It was a celebration of the wonders of science and its impact on our daily lives. The events and activities organized helped to promote scientific awareness and encouraged students to think creatively and develop problem-solving skills. The 2025 theme is 'Empowering Indian Youth for Global Leadership in Science and Innovation for Viksit Bharat'. Let us celebrate the spirit of Science and its power to transform our world for the bright future.

(Principal – cum – Director, APS) Mr. Hemant Kumar Sharma, (Vice Principal, APS) Dr. Renu Patidar and coordinators congratulated Ms. Dhvani Buch and students for their active participation.
