

Tree Plantation

June 23, 2025

“Plant a Tree and plant hope for future.”

Tree Plantation is the process of planting trees in specific areas, often as a part of a larger effort to promote environmental sustainability, to beautify a space and to mitigate the effects of climate change.

In line with its unwavering dedication to environmental stewardship and its strategic vision for a greener future, APS organized a significant Tree Plantation Drive. This initiative was lead to celebrate the Founders Day, Birthday of Hon. Chairman Shri Gautam Adani Sir, demonstrating leadership's profound commitment to sustainable practices. By promoting tree plantation, we can work together to create a greener, healthier and a sustainable environment for our future generations.

Tree Plantation drive was carried on June 23, 2025. Students of class VIII along with their class teachers, coordinators, (Vice Principal, APS) Dr. Renu Patidar, (Principal – cum – Director, APS) Mr. Hemant Kumar Sharma and (Director, APS) Ms. Ami Shah planted saplings of various trees on the ground near Rashapir circle Durgha. The saplings were arranged by Adani Foundation. A total of 2500 saplings were successfully planted.

Involvement of gram panchayat and locals in such social community initiatives confirms the hope and promise for a greener and better tomorrow.

Students made posters, created slogans and also gave speech sharing the importance of tree plantation. They also took a pledge to plant more trees and care for them. This drive reflects our proactive approach to creating a positive environmental impact within the region.
